Examination is continued under 37 CFR 1.114, in accordance with the grant of petition dated 18 May 2005.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5, 10, 11, 16 and 17 are rejected under 35 U.S.C. 102 as unpatentable as shown by Shigeki, Japanese Document No. 11-97699, cited by applicant. See Figures 1-3 with "semiconductor film" 22, "gate electrode" 24, "sub gate electrode" 40, 42, and "wires" 14, 44.
